

Annual College License

“Our students are excited and truly enjoy using the FastCAM technology as they learn and build their skills in the manufacturing and fabrication trade...FastCAM provide a vital link in supplying industry with highly skilled and qualified technical graduates”.

Mark J. Hawkins, Instructor/QA Manager, Welding Technology/Accredited Test Facility, Southeast Community College, Nebraska

Our FastCAM® Education Program is designed to afford trade students the opportunity to learn technology skills relevant to the manufacture and fabrication industries.

With dozens of software products, FastCAM® is used by hundreds of users around the world in many different industries including **Steel Fabrication, Metal Fabrication, Steel Service Centers, Mining, Construction, Signcutting, Woodworking and Flat Glass.**

All FastCAM® products have been built to be used by tradespeople.

Our Annual College License is a 12 month renewable license available to **approved** teaching institutes offering:

- One Master CD containing all FastCAM® software.
- Permission to install and use FastCAM® software in a teaching environment (non-production).
- Permission to reproduce instruction / training manuals for internal use.

Renewable License Fee Waiver!

In addition to offering an affordable licensing program, FastCAM Inc. is happy to waive a renewable license fee if a college ‘value adds’ to our business in some way. For example;

- Writes a FastCAM® Course
 - Performs a Language Translation on one of our software programs or training courses.
1. Needs to be pre-approved and agreed between FastCAM & College.
 2. FastCAM will require permission to use and publish (with full author acknowledgement).
